Workbook. S. 62 Nr. 2**2 Designer clothes**

Designer clothes are popular because they have a famous name.

a) Read the two articles on the opinions page of a magazine. Write the right words from the box.

I never buy designer clothes for a number of different reasons. Firstly, I think they're far too expensive. Secondly, I don't think they're better quality than cheaper clothes.

I think you can often buy cheaper clothes that are as good as designer clothes. I think cheaper clothes often look better, too.

Of course, many people think that designer clothes are cool, but I think it's sad if people think that clothes are so important. So to sum-

up, designer clothes are a waste of money!

Olivia

I really like designer clothes! On the one hand

I agree that they're sometimes very expensive, but on the other hand you can often buy them at cheaper prices at the end of the season.

So you don't have to spend a lot of money. In

my opinion designer clothes definitely look

better than other clothes. And if you look

good, you feel good! I really think that's

important. To sum up, then, I think designer

clothes often cost a lot of money, but the price is fair because the clothes make you feel special.

WB S. 63 Nr. 3 now you a +b

Possible solution: In my opinion I don't need designer clothes. They are not important for me.

First of all clothes have to fit to you and they needn't to be expensive. The quality of the clothes is more important than the price. If they are of a good quality, they can be cheap, too I think.

I don't like to spend so much money for clothes therefore I think it is just a waste of money.
